Versailles Schools Closed

The Versailles high school closed one of its most successful terms last week, owing to the fact that the board having become more interested in the school work to the extent of aiding Prof. C. F. Johns, the superintendent, who has had charge of the schools here the past four seasons and who is one of the best educators in the state and will continue in our school at least another year, having been again employed by the board. There were five graduates from the high school and twenty from the grades. One of the most instructive addresses ever delivered in Versailles was the one by Arthur Downs, of Marshall, Mo., on the subject "Life Is Worth Living." The program of the week throughout was the best ever rendered at a commencement in Versailles according to many of the older people. With a "long pull, a strong pull and a pull all together" by board, teachers, patrons and pupils, the school will be even better the coming year.
